PROSERIES

A great selelection of security products to choose from.

ProSeries. Designed by professionals, for professionals.

Building on a foundation of proven technologies, we are pioneering the next wave of the connected home for you and your customers.

Resideo is a leading provider of home security and life safety solutions. As industry pioneers, we have developed our next wave of connected home technology to help your customers feel safe and secure. With more than a century of experience in innovative, reliable solutions, we are your trustworthy business partners, committed to your success.

One platform. More protection. More opportunity.

ProSeries platform brings security and simplicity to homes and small businesses, with a host of features and benefits in one powerful, end-to-end ecosystem. It offers our largest-ever range of supported home solutions in one modular, scalable system.

TRUSTED IN 150 MILLION HOMES.

Resideo products are installed in over 150 million homes, helping customers feel comfortable, safe and secure worldwide.

Security and innovation at every step.

Modular by design, ProSeries products can be customized to your customers' individual lifestyles. It's responsive, alerts are faster than before and offers hands-free disarming for an enhanced user experience. Takeovers and upgrades are simple, cost effective and stress free. The future-proof system can grow with customer needs, and is ready for the next technology trend.

Proven life safety.

ProSeries products help you take care of premises – and people. Smart sensors detect smoke, heat and CO, triggering One-Go-All-Go alarms and initiating audio and visual evacuation warnings.

The smarter home.

ProSeries products offers your customers a smart, connected home with a single, easy-to-use app, which controls lighting, locks, thermostats and more. Optional features like video storage help you upsell and increase your RMR.

Small business security.

ProSeries products use the same peripherals and controls for small-to-mid-sized businesses and households, meaning no need for additional training or stock. With world-leading certification and compliance, the system can flexibly cover up to four partition areas and provides video alert verification.

- **Modular design** means **customizable solutions** for individual lifestyles and **price points.**
- **One-Go-All-Go alarms** for connected **life safety solutions.**
- One system works for residential and **small-medium business customers.**
- **Compatible with** smart home technologies for connected, supported living.

Available on ProSeries A7 Plus

WIth ProSeries family of products, Amazon Alexa isn't simply enabled – it's built in! Customers get Alexa functionality, so whether they want to check the weather forecast or raise their thermostat, they can do so with simple voice commands.

MotionViewers® allow users to react with insight, and medical or panic buttons provide additional support for those in need. Hands free disarming allows the system to disarm without the need to enter a code.

ALL ROUND PROFESSIONAL SECURITY.

Professionally monitored security, day and night, will help give your customers a feeling of piece of mind.

Increase the lifespan.

ProSeries products are future-proof, designed to grow with your customers' needs. Future technology upgrades are easily accommodated and extend the lifespan of your customer.

Protect and grow with AlarmNet 360™ Insights.

AlarmNet 360 Insights shows how your customers engage with ProSeries products. It helps you manage, filter, export and sort account information, using real time, interactive dashboards that identify customer needs, so you can act on new opportunities as they arise.

Protect.

ProSeries products make takeovers easy for you, but difficult for competitors. Our sensors lock to our panels, preventing re-use, which means customers considering a change must get in touch with your team, allowing you an opportunity to discuss their needs.

- **Modular to support changing needs and technologies.**
- **Locks your sensors and protects your RMR.**
- **Future-focused design to increase lifespan.**
- **Monitor your base for attrition risks.**

Whole home protection with one system. Some features only available on ProSeries A7 Plus.

Win|Keep|**Drive**

MORE PROFITS.

More options. More choice.

With ProSeries' family of products broad range of modular security and life safety accessories, you have more opportunities to re-engage and upgrade customers after the sale.

More efficient. More revenue.

ProSeries products means efficiency which could mean more revenue for you. The customizable templates and checklists mean smoother installs, the over-the-air updates and end-user replaceable parts will reduce truck rolls - and training is reduced thanks to the platform's seamless consistency. All of this gives you more time to spend on your business.

- Optional **end-user replaceable batteries** and modules.
- Universal peripherals for **efficient stock control.**
- One system. **Hardware, software and support** all together.
- **'Over the air'** updates.
- Remote **system diagnostics**.
- Anytime-anywhere **system maintenance**.
- **Simpler** user interface - easier to learn.
- **Fully encrypted end-to-end.**

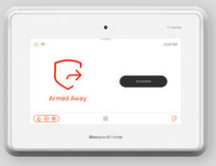

SEAMLESS, SMART AND EFFICIENT.

Win more opportunities.
Keep customers loyal.
Drive efficiency and profits.
